Ideas to Transform Your Hair for the Warmer Months

There is a sure-fire way to set your summer to 'sizzle'. Hint: it's less about snags on the barbie and so much more about your fresh spring and summer locks.

Sure, getting yourself summer-ready is about stepping up the whole package but nothing beats a glow that's invested in the accessory you wear all the time – your hair! But what colours are in and how do you make it look effortless? Chilli Couture, easily the best hairdresser in Perth, is wording you up on the latest and greatest.

Caramel Blonde

De-licious! Allow Chilli Couture – the best hairdresser in Perth, and everyone knows why – to dish this colour mix to your hair for a sweet, sweet summer treat.

Caramel blonde is achieved by using touches of gold, honey and caramel balayage. Just the right balance of all three tones will see you walking out of the salon with amazing new depth to your hair and some lustrous highlights that will instantly set you up with the chicest of beach babe looks.

Cool Blonde

Many of us are looking for an edge as spring and summer roll around – to get us out of our winter shells as much as wake up the social scene. Cool blonde can take on a number of colour techniques, from baby-lights to platinum to dark, blushed and ash blonde.

Cool blonde is the on-trend modern look but still with a minimalist need, and the standout style for when you're chasing that grungy look on a warmer night.

Toffee Brown

Think your brunette hair is warm now? Step it up for summer with the lively tones of toffee and caramel.

Nothing too daring, it's that approachable, down-to-earth vibe but with a dynamic brunette look. Once Chilli Couture has the toffee brown licks coursing through your locks, add a summery bohemian level with soft tousled curls to accentuate the glowing tones.

Lilac Lemonade

Mother Nature certainly steps up the colour palate when summer comes to town so take your hair along for the ride with some summer fun pastel. Lilac Lemonade done the Chilli Couture way sees violet highlights injecting hair styles with radiance and unmistakable energy. It's an ideal choice for daring girls who want to introduce their vivacious personalities at the door!

Peachy Pink

They're oh, so sweet to eat in summer and now, peach adds a sweet twist on blonde hair. Any one of Chilli Couture's pastel pink colours can elevate your style with some carefree vibrancy. Hell, why not go all out and match it to your fave peach lippy or some pink short overalls?
