## **Full Home Renovations Page**

Anyone who has undergone a luxury home renovation will tell you – *“You need a team of more than just builders.”*

Congratulations – you’ve found that specialised group.

### **Home Renovations Perth**

Alvarez Design has been overseeing luxury home renovations for years. We combine skilled construction with experts in the fields of design, project management and planning, delivering complete home renovations to Perth.

#### **What’s included in our luxury home renovations?**

Our interior designer will come to your home. They’ll listen to your home renovation dreams and with a meticulous eye, appraise your home for its suitability. They’ll make sure that your personality shines through while leaving room for final tweaks to the plans.

They’ll discuss furniture placement so that if you’re keeping your existing furniture, it works well into the new space.

Blind and curtain inclusions are given careful attention and if wallpaper has long been a vision, we can deliver there too.

The final additions to bring it all together are the flooring and paint colours. It’s all taken care of with a designer’s touch to really dress your home to impress, from top to bottom.

### **Kitchen and Bathroom Specialists**

Quite probably the two most important rooms in a home, we are proud to carry a proven design record here. We’ve designed and installed a multitude of kitchen and bathroom renovations, each one a stand-out in its individuality and practicality.

Nothing is left to chance in any of our luxury home renovations in Perth. From day one to completion, we protect your home throughout the renovation with floor protection,

*Clever Copywriting*

site screens and a team of reliable and trustworthy trades who work clean and with the world's best brands and hardware.

### **Customer Service in Luxury Home Renovations**

Our customer service really does set us apart from our competitors. After conceiving your agreed design, we head back to the office to create high resolution 3-D renderings of your new space. It's the perfect way to feel one hundred per cent comfortable with the concept before any work begins.

Sergio and the team then prepare a full proposal rather than just handing over a sheet of paper with a quote on it. It will outline every element of your project. You'll know the cost. You will have open lines of communication with our Project Manager and you will have a hard and fast completion date. It's industry best practice and it's what keeps us at the top of the game.

### **Contact us for Home Renovations in Perth!**

Yes, it's a new home that you're after... but we guarantee by the end of it, if Alvarez Design has completed your luxury home renovation, you'll have a superb new home and a solid relationship with a builder you can trust.

We love what we do – and so do our clients. To see examples of past successes and to meet the team, please call us for a free design consultation today.
